

**Villages Honor Flight, Inc.
Policy B-15
Medical Team**

Article 1: Purpose:

The purpose of this policy is to define the responsibilities and activities of the Villages Honor Flight Medical Team.

Villages Honor Flight maintains a staff of trained medical volunteers to assist in many of the organization's activities. These volunteers may attend any of the Village Honor Flight events. The Medical Staff may provide pre-flight screenings to ensure the proper management and placement of our Veterans on our missions and assist them during the missions. The detailed responsibilities of the Medical Team are outlined in the latest Medical Team Procedures which are contained in the VHF Hub Management procedures. These procedures mandate that, in the event of a serious injury, 911 be immediately called. This Policy limits the Medical Team to providing only basic first aid when necessary and prohibit the disbursement of any medications.
